Nili, born and raised in Israel, studied art at the Avni Academy in Tel Aviv. During her studies she worked at the Kameri Theater as an Assistant Stage Designer. Nili has been working with Keshet Chaim Dance Ensemble (www.kcdancers.org) since 1992, designing and creating the company's costumes and accessories. In Denmark she works mainly with computer graphics and web design and as a freelance costumes and stage designer. Years of traveling made a strong impact on her paintings and designs, which you will notice while visiting her [Art Gallery](#).

With strong colors and contrast, each picture tells a story of somewhere in the world. (Including a wide fantasy world). Nili got into silk painting after working some years with Batiks, and stage decorations. She developed her own technique to paint real pictures on silk and you can see the results in www.nili.dk different galleries.

The impact of her silk creations can be seen in Keshet Chaim's "Jerusalem Mystical Journey", where she designed and created more than 100 different costumes for the show, all hand painted.
